

Green Alchemy was developed to help counteract the nutritional deficiencies many individuals experience due to excessive daily stress, poor diet and the lower nutrient levels that exist in highly processed, pesticide rich, overcooked foods.

This mostly organic energizing and alkalizing formula provides potent antioxidants to help prevent free radical damage while promoting cellular well being. The broad-spectrum enzyme complex, probiotics and fibers help speed assimilation of the herbs and nutrients and are good for cleansing and restoring balance to the colon and digestive system.

Every Bottle of Green Alchemy Contains:

Algae Blend: This synergistic blend of algae creates a more digestible, nutritious, and compatible product that works well with most body types. Our algae blend is a rich source of vegetarian protein, high in trace minerals, chlorophyll, the 8 essential amino acids, carotenoids, and essential fatty acids, (GLA). Researchers have demonstrated that Carotenoids help to improve immune response by stimulating T-helper cell activity and are currently exploring the antiviral properties found in spirulina.

Organic Cereal Grass Juices: This juice blend comes from organically grown grasses that are harvested as young plants at the height of their nutritional cycle and then juiced. The grass juice is then immediately cool spray dried to concentrate and preserve the many nutrients found in the fresh young plants. This creates a more concentrated and nutritious product than simply cutting and drying the grasses and grinding them up into a fine powder. Our grass juice powder contains many minerals, carotenes, the vitamins A, B, E, & K, chlorophyll, phosphorous, SOD (antioxidant enzyme), hundreds of digestive enzymes (which aid in detoxification). Juiced cereal grasses are the richest sources of chlorophyll.

Organic Vegetable Juices: Vegetables, when uncooked, contain many scientifically documented phyto-chemicals and nutrients that have been shown to have numerous healing properties. Fresh organically grown vegetables are picked and quickly juiced. The fresh juice is then immediately cold spray dried to create the remarkably nutritious powder. Our vegi juice blend is a concentrated source of phyto chemicals, vitamins, minerals, and mixed carotenoids. Phyto chemicals and mixed carotenoids may help reduce the risk of many diseases as well as protecting the skin against the harmful effects of UV radiation.

Herbal Extract Blend: The Green Alchemy herbal blend are herbs that have been used for centuries to aid the body in healing, detoxification and rejuvenation.

Mushroom Extracts: Concentrated extracts of the mushrooms; Reishi, Maitake, and Shiitake, have been scientifically shown to have immune-boosting properties that help your body fight off colds and prevent disease. A major health benefit of medicinal mushrooms is attributed to a group of their active components called polysaccharides. These complex carbohydrates stimulate immune response by activating T-cells and macrophages.

Digestive Enzymes: This vegetarian, high strength enzyme complex ensures good assimilation of the many nutrients and herbs in Green Alchemy.

Acerola Berry Juice Powder: This is an all-natural complete form of vitamin C (powerful antioxidant)

that is highly absorbable by our bodies.

Aloe Vera Powder: The many benefits of aloe go back hundreds of years, our 100x aloe powder is a rich source of mucopolysaccharides (MPS), which have very similar properties as our mushroom extracts. People taking Aloe Vera say that they have more energy, their digestion is better and they feel healthier in general.

Beta-1,3-D Glucan: This highly researched nutrient has been shown to enhance macrophage production dramatically, and to increase nonspecific host resistance to a variety of bacterial, fungal, and parasitic infections, and to inhibit tumor growth.

Fiber Blend: Fiber is necessary for good colon health. Our combination of fibers creates an excellent source of soluble and insoluble fibers. Soluble fibers act as a bulking agent, which helps to prevent constipation, while insoluble fibers work to eliminate toxins. In addition, the flaxseed contains the essential Omega-3 and Omega-6 fatty acids.

Probiotic Cultures: These "friendly" bacteria improve digestion and boost immunity. Many individuals are deficient in these "friendly" bacteria due to high stress and poor diets. A healthy colon needs to have a good established colony of the "good" bacteria, which can be achieved with regular supplementation. Each serving of Green Alchemy provides high levels of these dairy-free "friendly" bacteria. The addition of fructo oligo-saccharides (FOS) ensure a good food source for the bacteria.

Lecithin: Recent research suggests a possible deficiency of this essential nutrient due to lower fat diets. Lecithin has been shown to play a vital role in a healthy cardiovascular system, and liver and cell function

Stabilized Rice Bran Solubles (SRBS): SRBS contain all of the essential amino acids, vitamins, minerals and essential fatty acids (EFA's) required to maintain a healthy life. Stabilized rice bran solubles are one of the richest sources of vitamins B & E and contain more than 70 antioxidants.
